Anuj Gupta

Internship

👤 Profile

Highly motivated and detail-oriented professional with a strong Java and Python programming foundation. Proficient in front-end development, with expertise in crafting engaging user experiences. Additionally, I am skilled in machine learning and data analytics, with hands-on experience in Power BI and other data visualization tools. Passionate about leveraging technology to drive business growth and improve decision-making processes.

🎓 Education

B.Tech in Computer Science and Engineering, Noida Institute of Engineering Technology, Greater Noida

Jan 2023 - Present

📰 Projects

INTEGRATED APPROACHES FOR EFFICIENT MULTI-MODAL BREAST CANCER DETECTION

Feb 2024 - May 2024
Addressed the limitations of individual imaging modalities by proposing integrated approaches for efficient multi-modal breast cancer detection. We begin by utilizing state-of-theart deep learning architectures, including Convolutional Neural Networks (CNNs), ResNet, and Vision Transformers, to analyze mammography images.

BUILD WEB APPLICATION FOR BRAIN TUMOR DETECTION USING ML MODEL.

April 2024
An integrated approach to build a web application for Brain Tumor Segmentation/Detection using ML Model. This Project was built in Hackathon(24 Hour Hackathon) presented by GDSC BVP, New Delhi
